DICOTA

Bags

Quality

DICOTA is renowned for supreme quality and functionality in all of our bags and cases for your personal media products. We know that these things are not merely devices, they are used to store ideas, documents and memories. Sometimes an entire life. Every DICOTA product was created for a world on the move; a world that requires perfect protection with first class design. Protect your world.

Our products feature double seams and tearproof threads, smooth-running and "self-healing" zippers, solid metal fittings at all pressure points and double-secured carry handles. To ensure maximum protection they have high-density foam padding and some bags are equipped with our patented "Permanent Air Cells Technology" padding. We only use high-value nylon and polyester as well as selected leather of the finest quality to make sure our bags meet the high demands of our customers.

Warranties

We have strict production guidelines and a demanding quality control system that enables us to offer a "no limits" warranty that covers every material and manufacturing fault for DICOTA bags.

DICOTA accessories, phone and tablet cases, cases that have a trolley function, cases with electrical components, hard-shell and other non-standard products are covered under our standard 24-month warranty.

* Neoprene/Memory foam

15" 16.4"

Notebook size

The case fits notebooks between the indicated sizes.

Notebook size

The case has space for a notebook up to the indicated measurements.

Top loader

Opens from the top, where the notebook can be inserted and secured.

Front loader

Opens from the front, where the notebook can be inserted and secured.

High-Density Foam

The case has built-in High-Density Foam padding that is shock absorbing and keeps its shape even when exposed to rough treatment.

Memory Foam

The case has built-in memory foam padding that distributes the force of blows evenly across the entire surface of the foam, thereby keeping your notebook safe.

Permanent Air Cells

An extremely robust multi-chamber system of air cells keeps your notebook safe.

Trolley

Case with wheels and extractable handle for easy transportation.

Printer

A case made specifically for printer mobility. Convenient for the mobile office.

Printer size

The maximum outer dimensions a printer can have in order fit into the bag.

Leather

The case is made of real leather.
